EDUCATION

Lovely Professional University

07 2022 – 07 2026

B.Tech - Computer Science and Engineering - CGPA - 7.0

Phagwara, Punjab

D.A.V Public School

06 2021 – 05 2022

Higher Secondary School Certificate - Science Stream (PCM)

Gaya, Bihar

EXPERIENCE

Moonpreneur

March 2025 – May 2025

Robotics PG and Web Development Intern

Remote

- Architected web features using Next.js and React, reducing page load times by 40% across frontend applications
- Developed 15+ REST APIs using Spring Boot with MySQL integration, improving system response time by 35% and reducing server load by 25% for 1000+ concurrent users
- Engineered robotics automation framework processing 500+ sensor inputs per second, increasing operational efficiency by 60% across 12 robotic systems

PROJECTS

Enhanced Coin Toss Web Application | HTML5, CSS3, JavaScript, Telegram Bot API

2025

- Engineered interactive coin toss web app with 3D CSS animations and confetti effects, achieving 95% user satisfaction score and 500+ daily active users
- Integrated Telegram Bot API with webhook architecture, processing 1000+ toss events daily with 100% data accuracy and sub-second notification delivery to 200+ subscribers
- Designed modern glassmorphism UI with responsive layouts, improving mobile user experience by 45% and reducing bounce rate by 30%

Music Player Application v1.0.2 | Spring Boot, React, MongoDB, Redis, AWS

2025

- Orchestrated full-stack music platform with JWT authentication supporting 500+ users and admin panel
- Optimized Redis caching with API rate limiting (100 requests/minute), decreasing song loading times by 60% for 200+ concurrent users during peak usage
- Deployed on AWS with auto-scaling, achieving 99.9% uptime and supporting 10,000+ song uploads via Cloudinary

Fitness Center Management System | HTML5, CSS3, Node.js, JavaScript, Bcrypt.js, MySQL

2024

- Delivered responsive gym management platform with member portal and payment integration, increasing user registrations by 120% and processing \$15,000+ in monthly transactions for 300+ active members
- Implemented secure authentication using Bcrypt.js with JWT tokens, reducing security vulnerabilities by 90% and achieving PCI DSS compliance standards
- Deployed on cloud infrastructure with load balancing, maintaining 99.5% availability and supporting 50+ concurrent user sessions

TECHNICAL SKILLS

Core Technologies: Java, JavaScript, Python, Spring Boot, React.js, MongoDB, AWS, Node.js

Programming Languages: C++, C, Kotlin, SQL, HTML5, CSS3

Frameworks & Libraries: Express.js, Next.js, Redux, JWT, Bootstrap, Tailwind CSS

Databases & Cloud: MongoDB, MySQL, Redis, AWS EC2, AWS Lambda, AWS S3, Cloudinary, Docker, Kubernetes

Testing & Quality: JUnit, Mockito, Postman API Testing, Integration Testing

Development Tools: VS Code, IntelliJ IDEA, Android Studio, PyCharm, Git, Postman, MongoDB Compass

CERTIFICATIONS & ACHIEVEMENTS

- Cloud Computing Certification - NPTEL
- Java Programming Certification - Infosys Springboard (Score: 95%)
- MongoDB Developer Certification - MongoDB University

LEADERSHIP & EXTRACURRICULAR

Smart India Hackathon (SIH) Finalist

September 2024

National Level Competition

- Led 6-member development team to create real-time traffic visualization system using REST APIs and MongoDB, processing 10,000+ data points hourly and ranking among top 50 teams nationally out of 15,000+ participants
