Technical Skills

Languages: Java, C, C++, JavaScript, Python, Kotlin, SQL - PostgreSQL, NoSQL - MongoDB, HTML, CSS, XML
Frameworks & Libraries: Spring Boot, ReactJS, Node.js, Express.js, Next.js, Socket.IO
Tools & Platforms: Linux, Git, GitHub, Docker, Kubernetes, JWT, Apache Kafka, AWS, Postman, IntelliJ, VS Code, Android Studio

Experience

SDE-1 Intern, Inteligenai

Jan 2025 – Present

Multi-tenant Electronic Medical Record (EMR) Platform

On-site, Gurgaon

Admin Portal | Booking Portal

- Shipped features across the EMR monorepo (patient + admin portals, REST API, real-time chat) covering appointments, prescriptions, billing, and IPD workflows.
- Developed React 18 / Vite / MUI screens backed by TanStack Query, and migrated legacy Recoil atoms into the unified query layer for cleaner data flow.
- Implemented Spring Boot 3 (Java 21) endpoints over MongoDB with JWT auth, multi-tenant ThreadContext, and Resilience4j circuit breakers; integrated a Socket.IO chat service.

Robotics PG & Web Development Intern, Moonpreneur

Mar 2024 – May 2024

Web Development & Robotics Programming Track

Remote

- Shipped frontend features and bug fixes across Next.js + React applications, focused on UI responsiveness and component reuse.
- Built and maintained Spring Boot REST endpoints powering the frontend, with attention to error handling and contract stability.
- Supported the Robotics PG curriculum with automation, control-algorithm, and system-integration tasks across cross-functional teams.

Projects

Music Player Application v1.0.2 | Spring Boot, React, MongoDB, Redis, AWS

2025

- Orchestrated a full-stack music platform with JWT authentication supporting 500+ users and an admin panel.
- Optimized Redis caching with API rate limiting (100 req/min), cutting song load times by 60% for 200+ concurrent users.
- Deployed on AWS with auto-scaling, achieving 99.9% uptime and supporting 10,000+ song uploads via Cloudinary.

Library Management System | Spring Boot, Java, Spring Security, JWT, PostgreSQL, React, Tailwind

2024

- Built a JWT-secured REST API in Spring Boot with Spring Security and role-based access (ADMIN / MEMBER) over PostgreSQL via Spring Data JPA + Hibernate.
- Implemented full lending workflow with 14-day loan periods, issue/return transactions, and automatic overdue fine calculation (5/day) on top of paginated, sortable catalogue search.
- Built a React 18 + TypeScript + Vite frontend with Tailwind CSS, role-aware navigation, dashboards, modal forms, and toast notifications backed by Axios + React Router 6.

Education

Lovely Professional University

Jul 2022 – Jul 2026

B.Tech in Computer Science and Engineering — CGPA: 7.4

Phagwara, Punjab

D.A.V Public School

Jun 2021 – May 2022

Higher Secondary School Certificate — Science Stream (PCM)

Gaya, Bihar

Key Achievements

Smart India Hackathon (SIH) — Hackathon Participant

2024

6-member team — Real-time traffic data visualisation

Virtual / India

- Built a web-based solution for real-time traffic data visualisation, integrating public APIs with a PostgreSQL-backed service.
